KENNEDY HALL RELOCATION ON STATESBORO CAMPUS
01.09.19

We sincerely apologize for this late notification of an issue affecting your housing assignment for the spring semester that requires your immediate attention.

Georgia Southern University is closing Kennedy Hall student housing this semester. Varying levels of mold have been detected in the building, and — out of an abundance of caution — the university is taking this step to ensure the safety of our students.

All students scheduled to move into Kennedy Hall later this week will have to be relocated.

We are working now to finalize housing options this semester for all students.
